

Dear Microsoft Hiring Team, I am writing to express my strong interest in the Software Engineer Internship at Microsoft. As a Computer Science student with a solid foundation in data structures, algorithms, and modern programming practices, I am eager to contribute to impactful projects while expanding my technical expertise under the guidance of Microsoft's world-class engineers. Through my academic journey and project experience, I have developed skills in designing and building applications using technologies such as Python, Java, web frameworks, and databases. I particularly enjoy applying engineering principles to solve complex problems, writing clean and efficient code, and collaborating with peers to deliver reliable and innovative solutions. I actively seek opportunities to learn new technologies and incorporate them into my work, which aligns closely with Microsoft's culture of innovation and growth. What excites me most about this opportunity is Microsoft's mission to empower every person and every organization on the planet to achieve more. I am inspired by this vision and motivated to contribute to building next-generation software that has a meaningful global impact. I believe my enthusiasm for problem-solving, strong academic background, and collaborative spirit make me a strong candidate for this role. Thank you for considering my application. I look forward to the possibility of contributing to Microsoft's mission while growing as a software engineer through this internship. Sincerely, Vedashree Bhandigare
